

# *Wikis in English*

An Online Discussion Format

# **Why use wikis in education?**

- Wikis encourage collaborative learning and information sharing.
- They increase student engagement and participation.
- Wikis facilitate communication between teachers and parents and guardians.

# **Additional Thoughts**

- It is something different for both you and your students. Expect a learning curve for both.
- It can become the focal point of your course.
- Don't focus on just the “shining” stars. Get students who “get it” to help those who don't.
- Anticipate chaos.
- It is a great way to learn collaboration and content creation.
- You can make something meaningful that extends beyond the classroom.
